CONTINUATION PAGE

Addition language added to page 14/80 of solicitation at the end of Price/Cost Schedule (Please see below):

Note Endoscopic procedures will be billed by CPT code in customary fashion. Whenever multiple CPT codes must be used for an endoscopic procedure in a single patient at a single encounter the primary endoscopic procedure will be paid only once for that encounter. For example, if “colonoscopy, flexible, proximal to the splenic flexure; with biopsy, single or multiple” (45380) and colonoscopy, flexible, proximal to the splenic flexure; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique” (45385) are billed for the same patient and same encounter, the primary procedure submitted (probably 45383 in this example) will be paid in full and the secondary procedure (45380 in this example) will be paid in full less the amount for simple colonoscopy (45378) since that was included in the payment for the primary procedure (45385). Similarly, when multiple upper endoscopic (esophagogastroduodenoscopy) CPT codes are billed for the same patient at the same encounter the simple esophagogastroduodenoscopy will be paid only once.
